Want to do something different?
We can create a curriculum to fit your needs!

Theatre is a Team Sport

Using cooperative activities and games, this curriculum teaches students the three C's:

- Communication
- Collaboration
- Cooperation

Students work on mutual respect, listening skills, active focus, and learn the advantages of teamwork

Design a Program

Create your own program to fit your needs whether it be a single class, a combination of classes, or a series. Each class is based on standards-aligned curriculum and taught by a trained Weathervane instructor with a background check.

Drama Club

Let us be your Drama Club! A Weathervane Instructor will come to your school to work with a group of students on acting, scene study, set design, play-writing, and costuming through classic plays and musicals.

Play the Part!

In Play the Part workshops, students learn by becoming their favorite characters and exploring a whole new world of fantasy and make believe. Students learn through experience with curriculum based on certain subjects whether it is stage combat, history, cultural studies, chemistry, and more!

Some of these workshops include:

Jedi Training, Hogwarts, Superheros, Time Travelers, Around the World, Treasure Hunters and much more!

Workshops and Residencies

Through Weathervane's workshop and residency program, students get the opportunity to learn more about different aspects of theatre. Some of these topics include acting, dance, musical theatre, improvisation, public speaking, character development, and more! What do you want to learn about theatre? Weathervane can teach you!
